REMARKS

The Notice to File Missing Requirements, mailed March 29, 2006, required submission of an Inventor's Declaration. In response, Applicants respectfully submit the Declaration and Power of Attorney of Ghanem, a Petition to accept the Declaration of Ghanem on behalf of his co-inventor Mehlem, who refuses to execute his Declaration, and Part 2 Copy of the Notice.

Applicant (Ghanem) hereby petitions for acceptance of the Declaration on behalf of his co-inventor Mehlem, who refuses to execute his Declaration. This petition under 37 C.F.R. §1.47 is submitted along with the Declaration and Power of Attorney document executed by Ghanem which was not executed by his co-inventor Mehlem because Mehlem refuses to execute the Declaration and Power of Attorney.

Submitted herewith is the statement by Dr. Mehlem's co-inventor, Professor Ghanem, in which Professor Ghanem relates the submission of the application papers including specification and claims (there are no drawings) to Dr. Mehlem, Dr. Mehlem's initial cooperation regarding execution of a Declaration that was found to be defective by the USPTO, and Dr. Mehlem's later refusal to cooperate and sign a the corrected Declaration submitted herewith.

Specifically, Professor Ghanem states that Dr. Mehlem was presented with the Application papers including specification and claims (there were no drawings) and a Declaration (Declaration 1) between late March and early May 2005 and that Dr. Mehlem signed and took steps to return the Declaration to the undersigned attorney. Declaration 1 was submitted to the USPTO by first class mail on June 14, 2005. On March 29, 2006 a further Notice of Missing Requirements under 35 U.S.C. §371 was mailed by the USPTO stating, in part, that Declaration 1 was defective for failing to identify the application by its International application number and international filing date.

Professor Ghanem was then supplied with a revised Declaration (Declaration 2) substituting the International application number and international filing date for the US Serial Number and Express mailing date. Professor Ghanem then forwarded Declaration 2 to Dr. Mehlem on June 14, 2006 with a request that he sign the declaration. Roughly two weeks later, Professor Ghanem received a letter from Dr. Mehlem dated June 28, 2006 in which Dr. Mehlem acknowledged receipt of Professor Ghanem's request that he execute Declaration 2 but stated that because of differences between the two inventors and for various stated and

unstated reasons including "the inability to bring the Delivery System to market" that he would not cooperate with Professor Ghanem or accede to his request that he execute Declaration 2.

The last known address of Dr. Mehlem is:

Dr. Francesco Mehlem
Undenhofstrasse 2
CH-3042 Worblaufen
Switzerland

For these reasons it is requested that the Declaration signed by Professor Ghanem submitted herewith be accepted and treated as having been signed by him on behalf of Dr. Mehlem.

The Notice also required the submission of a substitute Sequence listing since the copy received in the U.S. Patent and Trademark Office does not comply with the requirements of 37 CFR §1.822 and/or §1.823. In response, Applicant respectfully submits a substitute sequence listing on one diskette along with a statement indicating the content of the diskette submitted herewith is identical, does not add new matter, and requests entry of the same into the application.

Applicant submits herewith the requisite surcharge of \$130.00 as set forth in 37 C.F.R. §1.16 (f) and 37 C.F.R. §1.492(h) for late submission of an oath/declaration, a fee of \$1590.00 for the 4 month extension of time under 37 § C.F.R. 1.17(a)(4) , and the petition fee of \$200.00 under 37 § C.F.R. 1.17(g). The Director is hereby authorized to charge or credit Deposit Account No. 13-2855 under Order No. 27656/40760 for any under or overpayment of all required fees.

DECLARATION OF GHANEM E. GHANEM.
PURSUANT TO 37 CFR § 1.48(a)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

I, Ghanem E. Ghanem, residing at c/o Institut Jules Bordet, Rue Heger-Bordet 1, B-1000, Brussels, Belgium, hereby declare that:

1. I am a co-inventor of the above-identified patent application along with Francesco Mehlem. I submit this declaration to make facts of record regarding Dr. Mehlem's initial cooperation regarding execution of a Declaration that was found to be defective by the United States Patent and Trademark Office and Dr. Mehlem's later refusal to cooperate and sign a corrected Declaration.

2. Specifically, I presented Dr. Mehlem with the Application papers including specification and claims (there were no drawings) and a Declaration (Declaration 1) between late March and early May 2005. Dr. Mehlem signed the Declaration and returned it to patent counsel so that it could be filed in the United States Patent and Trademark Office. I am informed that Declaration 1 was submitted to the USPTO in June 2005 but that in March 2006 the Declaration was found to be defective because it identified the application by its US application serial number and mailing date rather than its International application number and international filing date.

3. I was then supplied with a revised Declaration (Declaration 2) substituting the International application number and international filing date for the US Serial Number and Express mailing date. I signed a first copy of Declaration 2 and returned it to my patent counsel and then forwarded a second copy of Declaration 2 to Dr. Mehlem on June 14, 2006 with a request that he sign the declaration. A copy of the proofs of registration of the guaranteed mail to Dr. Mehlem is attached hereto as Exhibit A. Roughly two weeks later I received a letter from Dr. Mehlem dated June 28, 2006 in which Dr. Mehlem acknowledged receipt of my request that he execute Declaration 2. The letter, which is attached hereto as Exhibit B, states that because of differences between Dr. Mehlem and myself and for various other reasons including "the inability to bring the Delivery System to market" that he would not cooperate with me or provide his "consent for matters regarding the US Patent."

4. Because my June 14 letter requesting that Dr. Mehlem execute Declaration 2 was the only correspondence I had sent to Dr. Mehlem in a number of months I interpret Dr. Mehlem's refusal to provide "consent for matters regarding the US Patent" as a refusal to sign that Declaration. I further conclude that Dr. Mehlem will not execute the Declaration at this or any future time.

5. I further declare that all statements made herein of my own knowledge are true, that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001 and that such willful false statements may jeopardize the validity of the application or document or any patent which may issue thereon.

Dear Prof. Ghanem

receipt is acknowledged of your request for my consent for matters regarding the US Patent. Given our many differences voiced over and again these past years; the inability to bring the Delivery System to market and all of the other reasons of which we are aware, I cannot in good conscience accede to your request.
